KWF- approval for
standard apparel: February 2022
Valid for: 5 years,
(extension possible)
First approval: 2011

Test No. 5849

Application field

These standard safety boots are designed for carrying tasks such as **private firewood production, road maintenance, horticulture and agriculture in easy terrain including forest roads**.

The boots were worn for a total of 142 working days during the test.

Test results from the test 2011

Test item	Evaluation
Comfort	o*
Durability	+
Features	o
Care	+ - o
Overall impression	+ - o

+ + = very good; + = good; o = satisfactory; - = acceptable; - - = inadequate

* Challenger and Forest Ranger were more comfortable than Xtreme, because of the improved attachment of the tongue. As a result, lacing the Xtreme was found to be difficult during the test.
